

Symposium in Honour of Ransom Myers

Organiser: Jeffrey Hutchings (Dalhousie University)

Daniel Pauly

Affiliation: Fisheries Centre, University of British Columbia, Vancouver, BC

Title: On the emergence of fisheries conservation biology

Ray Hilborn

Affiliation: School of Aquatic and Fisheries Sciences, University of Washington, Seattle, WA

Title: What meta-analysis of recruitment data tells us about overfishing: from Maximum Sustainable Yield to Pretty Good Yield

Julia Baum

Affiliation: Scripps Institution of Oceanography, University of California, San Diego, CA

Title: Inspired by Ram: data-driven marine conservation biology

Derek Roff

Affiliation: Department of Biology, University of California, Riverside, CA

Title: Life history evolution: a Ram Myers' perspective

Robin Waples

Affiliation: National Marine Fisheries Service, Northwest Fisheries Science Center, Seattle, WA

Title: Anthropogenic evolution in a species at risk: a confluence of salmonid life history, altered selective regimes, and applied conservation biology

Jeffrey Hutchings

Affiliation: Department of Biology, Dalhousie University, Halifax, NS

Title: On threshold traits, conservation biology, Ram, and r.
